

Progression of Skills

We want to create a bank of statements which show a clear development year by year. These learning outcomes can be used to support the school community to understand the development of a child through PE. With support from the Liverpool School Improvement team, we have decided what statements would be fit for purpose for each stage of a child's progression in PE throughout KS2.

Athletics

National Curriculum Aims

The national curriculum for physical education aims to ensure that all pupils:

- develop competence to excel in a broad range of physical activities
- are physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active lives.

National Curriculum Statement:

Key Stage 1

Pupils should develop fundamental movement skills, become increasingly competent and confident and access a broad range of opportunities to extend their agility, balance and coordination, individually and with others. They should be able to engage in competitive (both against self and against others) and co-operative physical activities, in a range of increasingly challenging situations.

Key Stage 2

Pupils should continue to apply and develop a broader range of skills, learning how to use them in different ways and to link them to make actions and sequences of movement. They should enjoy communicating, collaborating and competing with each other. They should develop an understanding of how to improve in different physical activities and sports and learn how to evaluate and recognise their own success.
